TECHNICAL SKILLS

Mobile Development

Flutter / Dart — Advanced

Frontend

HTML5 · CSS3 · JavaScript

Database

MySQL — Advanced

Other Languages

Python · C++ · Basics

LANGUAGES

- ▶ English — Fluent
- ▶ Urdu — Native
- ▶ French — In Progress

STRENGTHS

- ▶ Public Speaking
- ▶ Critical Thinking
- ▶ Problem Solving
- ▶ Fast Learner
- ▶ Team Collaboration
- ▶ AI Tools Enthusiast

MAIRAB SATTI

Mobile App Developer · Frontend Engineer · Database Specialist

PROFILE

A driven final-year IT student at NUML University with a strong command of mobile and web technologies. I don't just write code I build experiences. From AI-powered study tools to full hospital management systems, I bring technical precision, creative energy, and a natural flair for communication to every project I take on. Debate champion, avid writer, and relentless learner I thrive where technology meets human impact.

PROJECTS

EduTrack

Flutter · MySQL · AI

An intelligent academic companion that helps students master their study habits.

- Tracks daily study hours with rich visual dashboards and weekly progress analytics
- AI-powered note summariser that distils long lectures into sharp, actionable key points
- Cross-platform Flutter app with an intuitive, mobile-first UI designed for student workflows
- Gamified progress system to keep students motivated and consistent

Nexus

Flutter · MySQL

A campus super-app bringing students, faculty, and university resources under one roof.

- Centralised hub for announcements, timetables, society events, and peer collaboration
- Role-based access control for students
- Real-time push notification system and modular resource-sharing modules
- Clean, accessible UI with onboarding flow designed for non-technical users

MedCore

JavaScript · HTML/CSS · MySQL

A full-stack web platform that streamlines hospital operations end-to-end.

- Complete modules for patient registration, appointment scheduling, doctor assignment, and billing
- Responsive frontend with dynamic data rendering, real-time search, and form validation
- Optimised relational database schema with complex multi-table joins and stored procedures
- Separate admin and staff portals with tailored dashboards for each role

QUICK FACTS

- ▶ 4 Full-Stack Projects
- ▶ Advanced Flutter Dev
- ▶ Debate Champion
- ▶ Trilingual
- ▶ AI Enthusiast

CURRENTLY

Open to internships,
freelance projects &
collaborations 🧭

GOAL

To build technology that makes
people's lives simpler, smarter,
and more connected.

MAIRAB SATTI — Projects & Achievements (continued)

PROJECTS (CONTINUED)

LibraFlow

JavaScript · HTML/CSS · MySQL

A modern digital library system replacing outdated manual cataloguing processes.

- Smart search and filter engine across categories, authors, genres, and availability status
- Automated due-date tracking with fine calculation, renewal requests, and return management
- Admin dashboard with real-time inventory stats, member activity logs, and overdue reports
- Clean, responsive UI accessible on both desktop and tablet screens

ACHIEVEMENTS & LEADERSHIP

🏆 Debate Champion : School & College Level

Consistently won inter-school and inter-college debate competitions, demonstrating exceptional public speaking, critical argumentation, and the ability to perform under pressure. These skills translate directly into confident client communication, team presentations, and clear technical documentation.

✍️ Creative Writer & Content Creator

Passionate about writing — from technical blogs to creative storytelling. Combines a love for language with a developer's analytical mindset to produce content that is both precise and compelling.

🤖 AI Tools Power User

Actively experiments with the latest AI tools to supercharge productivity and creativity — from code assistants to generative design platforms. Always ahead of the curve when it comes to adopting emerging technology.
